Portfolio: <https://rand0819.github.io/new-portfolio/index.html>

I am a web developer with a lifelong passion for technology and learning. In college I studied graphic design as well as computer science. Since then, I have worked at a tech support help-desk, and was personally sought out by the development team, for my attention to detail when testing, to become the founding member of the QA department working with automated and manual testing. I am a strong team member who is adaptable, funny, and supportive. I love working with front-end web technology and continue to advance my skills in pursuit of working as a front-end web developer.

Technical Skills: HTML5, CSS, JavaScript, VS Code, Node.js, Bootstrap, Materialize, AJAX, Firebase, MySQL

APPLICATIONS BUILT

Music Funtimes

- A one stop shop to find, and listen to your favorite artists, and find tickets to their shows
- I designed the look of the app using HTML, CSS, and Materialize
- <https://simonehong.github.io/musicproject/>

Train Scheduler

- An administrative tool for setting Trains on a schedule
- I built this app using JavaScript, Firebase, HTML, and CSS/bootstrap
- <https://rando819.github.io/train-schedule/>

RELEVANT EXPERIENCE

ASF Payment Solutions, Highlands Ranch, CO

QA Analyst, Aug. 2016- present

I work on a team of two manually testing our entire software base. Together we write testing scripts, run regression tests, log bugs, and train other ASF team members to use the new software.

Selected Contributions:

- Designed testing scripts for full regression testing of membership tracking, point of sale, and attendance software.
- Trained new developers on the use and operation of ASF software
- Contributed real world insight for design and use of software based on hands-on experience with ASF client base.

ADDITIONAL WORK EXPERIENCE

ASF Payment Solutions, Highlands Ranch, CO

Tech-Support, Aug. 2016- present

24-hour on call responder. Using remote desktop software to provide technical assistance and support to gyms and facilities which operate 24/7.

EDUCATION

Denver University, Denver, CO

Full Stack Web Development Bootcamp

An intensive 24-week long boot camp dedicated to designing and building web applications. Skills learned consisted of HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handlebars JS, & React Js.

Pikes Peak Community College, Colorado Springs, CO

Graphic Design, Computer Science
